MUHAMMAD TALHA YASIR

Rawalpindi, Pakistan | +92 328 5889161 | muhammadtalhayasir101@gmail.com | linkedin.com/in/swetalha | github.com/swetalha

EDUCATION

Bahria University — Bachelor of Science in Computer Science | In Progress

Relevant Coursework: Computer Programming in C++, Object-Oriented Programming in C++, Database Management Systems (Microsoft SQL), Computer Communications and Networks.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frameworks & Libraries: React JS, Tailwind CSS

Other Tools: Git, GitHub, Vercel

PROJECTS

Eat-n-Split — Bill Splitting App | React, JavaScript, Tailwind CSS | Link

- Built a React application to split shared expenses, add and select friends, and track outstanding balances.
- Used reusable components, useState, input validation, and immutable array updates to manage bills and calculate amounts owed.

Banktist — Banking Simulation | JavaScript, HTML, CSS | Link

- Developed a browser-based banking simulation with account login, transfers, loan requests, and account closure.
- Implemented transaction summaries, locale-aware currency/date formatting, simulated currency conversion, and timed logout.

Far Away — Travel Packing List | React, JavaScript | Link

- Built an interactive packing list with item entry, quantity selection, and controls to mark belongings as packed.
- Used React state to add and remove items, sort the list by packing status, and display trip preparation progress.

Dice Roll Game — Two-Player Browser Game | JavaScript, HTML, CSS | Link

- Developed a turn-based dice game with random rolls, player switching, score banking, and a 100-point win condition.
- Implemented DOM-driven score updates, custom player names, winner feedback, and game reset controls.
